

# Project BRIEF

## S. 27th Street (Milwaukee County) Project Information

### About The Project

The project stretches approximately 2.3 miles from south of W. Drexel Ave. to north of W. College Ave., in the cities of Franklin and Oak Creek in Milwaukee County.

Construction began in spring 2015 and is scheduled to be completed late fall 2016.

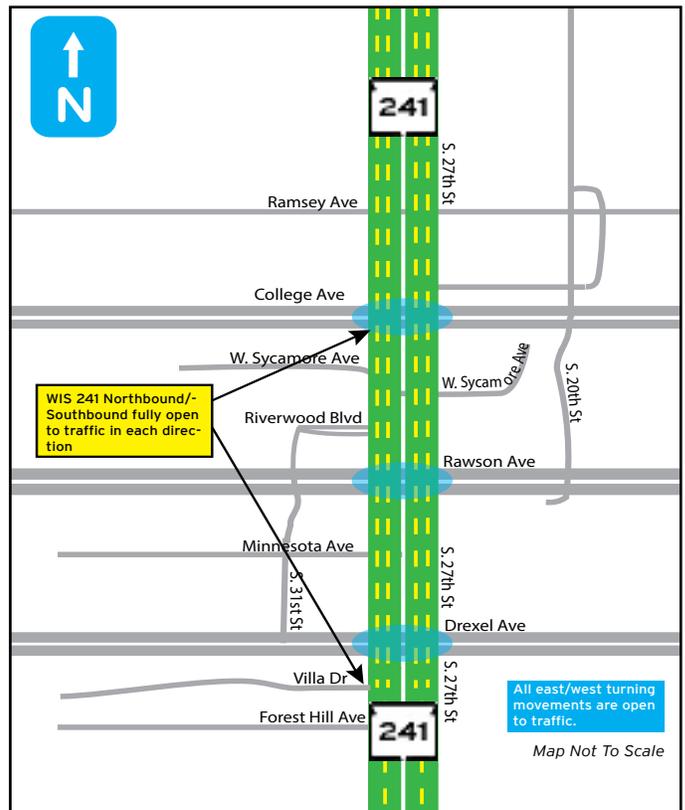

As part of the Wisconsin Department of Transportation's (WisDOT) WIS 241 reconstruction project, the upcoming project work is scheduled for the final phase of this project.

Crews are installing permanent signals, signing and finalizing some restoration work during the final phase of this project. This work may require periodic short-term daytime lane closures to complete the work.

All other project work has been completed and WIS 241 is **Open for Business!**

- Three lanes of traffic within the project limits on WIS 241 northbound and southbound are fully open to traffic.
- All east/west turning movements are open to traffic.

*The project team thanks you for your patience and understanding during this reconstruction project!*
